EDUCATION

Kalinga Institute of Industrial Technology

Sept 2020 – June 2024

Bachelor of Technology in Computer Science & Communication Engineering (8.32 CGPA)

Odisha, India

Delhi Public School Surat

March 2020

12th Standard CBSE (81.2%)

Gujarat, India

EXPERIENCE

Xebia | Full-time, Gurugram, India

Aug 2024 – Present

Junior Consultant – Data Engineer | Levi Strauss & Co. (client)

Jul 2026 – Present

- Leading the consolidation of two forked **Datapro** templates into one reusable framework component for **600+** **scheduled pipelines**, with hard batch time limits; verified identical output on all **628** pipeline configs.
- Designed and released per-task time limits in the shared **Vertex AI** pipeline framework used by **4 repositories**, sized from measured production run times with alerts naming the failed task; enforced on **9** e-commerce pipelines.
- Cut the run cost of the most expensive **Spark** pipeline by **98%** and ended its repeated 4-hour timeouts by pruning lookup joins and partition scans; right-sized clusters for **29 pipelines**.
- Led preprod validation of **7 Hybris** pipelines against the new **SQL Server Hyperscale** source ahead of the production migration; row counts matched for all 7.
- Restored a missing attribute across **6 months** of marketing events with a chained **DBT** backfill (**32 TB** scanned), reconciling **4,200** hourly windows and repairing **1,455 missing records**.

Technical Trainee | Centre of Excellence, then Levi Strauss & Co. (client)

Aug 2024 – Jun 2026

- Led the migration of **13 e-commerce data sources** from Databricks to **Spark on Google Cloud (Datapro)** and **BigQuery**, validating each pipeline against legacy output.
- Designed **CDC** for order data with **Datastream** and BigQuery snapshot and change views to replace Qlik.
- Built **Dataplex** data-quality scans for **2 data products** with thresholds tested on years of production data, and a **CI gate** that blocks DBT models without a scan.
- Centre of Excellence: built **RAG** document extraction on **Weaviate/ChromaDB** and a **Terraform** linter on **Claude** (AWS Bedrock) ; selected for Xebia's **Forward Deployed Engineer** program.

PROJECTS

imaarat.ai | FastAPI, DBT, DuckDB, LangGraph, Langfuse, PostgreSQL

- Built a **geospatial pipeline** mapping all **19,312 PIN codes** to official seismic, flood and cyclone zones with **Shapely** spatial joins; rules score each property proposal against it.
- Nightly **ELT** lands Postgres data as **Parquet** and builds **9 DBT models** on **DuckDB** with **26 data tests**; AI agents read hand-filled forms in **26 languages**, callable over **MCP** and **A2A**.

NYC Taxi Lakehouse | PySpark, Delta Lake, DBT, DuckDB, Airflow

- Delta Lake** lakehouse over **9.5M trips**: quarantines **3.9%** bad records via 5 reject rules, blocks bad loads with a 7-check quality gate, and serves DBT marts with **63 tests**.

Bookmark'd | ReactJS, PostgreSQL, Redis, REST APIs, JWT, Docker

- Four-member final-year project: built search, reviews and **JWT** login for a book discovery platform.

TECHNICAL SKILLS

Languages: Python, SQL, PySpark

Data Engineering: Spark, DBT, Airflow, Delta Lake, Databricks, ETL/ELT, CDC, Data Modeling, Data Quality

Cloud (GCP): BigQuery, Managed Service for Apache Spark (Datapro), Knowledge Catalog (Dataplex), Vertex

AI Pipelines, Datastream, Dataflow, Cloud Storage, Pub/Sub

AI: LLMs, RAG, LangGraph, MCP, A2A, Weaviate, ChromaDB, GitHub Copilot, Claude Code, Amazon Q

Tools & Databases: Git, GitHub Actions, Docker, Terraform, PostgreSQL, MySQL, MongoDB, Jira, Confluence

CERTIFICATIONS & ACHIEVEMENTS

Certifications: GitHub Copilot X-AI Practitioner+, Xebia (2026); Salesforce Developer Program (2023) 

Activities: Mentor, Xebia Tech-AI-Thon; NSS Community Lead; Grade 8 Keyboard, Trinity College London
