Education

Kalinga Institute of Industrial Technology

Bachelor of Technology in Computer Science & Communication Engineering (8.32 CGPA)

Sept 2020 – June 2024

Odisha, India

Delhi Public School Surat

12th Standard CBSE (81.2%)

March 2020

Gujarat, India

Experience

Xebia

Junior Consultant – Data Engineer

Aug 2024 – Present

Gurugram, India

Levi Strauss & Co. (client) | GCP, Apache Spark, BigQuery, dbt, Vertex AI

Sep 2025 – Present

- Led the migration of **13 e-commerce data sources** (orders, catalog, marketing, feedback) from Databricks to **Spark on Google Cloud (Dataproc)** and **BigQuery**, validating each pipeline against legacy output.
- Leading the consolidation of the Dataproc template behind **616 scheduled pipelines** into one reusable framework component; found that batches killed by their time limit were reported as **succeeded**, and shipped task timeouts with alerts in the shared **Vertex AI** framework.
- Cut a top-cost **Spark** pipeline's run cost by **98%** and ended its repeated 4-hour timeouts by pruning joins and partitions; right-sized clusters for **29 pipelines**.
- Owned data correctness for marketing analytics: a 32 TB **dbt** backfill that found and repaired **1,455 missing records** across 4,200 hourly source checks, plus a CI gate blocking dbt models without **Dataplex** checks.
- Designed **change data capture (CDC)** for order data with **Datastream** and BigQuery snapshot and change views, to replace Qlik replication.

Generative AI and AI-native engineering (internal) | Python, LLMs, RAG, Copilot

Aug 2024 – Present

- Built **RAG** document extraction with **LLMs** and **Weaviate/ChromaDB**: a resume parser and a bank-statement PDF-to-Excel extractor for complex tables, queried through a **Streamlit** chatbot.
- Built a **Terraform** linter on **Claude** (AWS Bedrock) for security and Well-Architected checks with auto-fixes ; selected for Xebia's **Forward Deployed Engineer** program (Oct 2026).

Projects

NYC Taxi Lakehouse | PySpark, Delta Lake, dbt, DuckDB, Airflow

- Delta Lake lakehouse ingesting **9.5M trips**: quarantines **3.9%** bad records via 6 business rules, blocks bad loads with a 7-check quality gate, and serves dbt marts with **63 tests** (53 generated by a profiling agent).

Underwriting Risk Assessment | Python, GitHub Copilot agents, LLMs

Xebia X-AI Practitioner+

- Team-built underwriting risk app, developed with **GitHub Copilot** custom agents, skills, rules and hooks.

Bookmark'd | ReactJS, PostgreSQL, Redis, REST APIs, JWT, Docker

- Final-year team project on **PostgreSQL** and **Redis**; built search, reviews and **JWT** login in **ReactJS**.

Technical Skills

Languages: Python, SQL, PySpark

Data Engineering: Apache Spark, dbt, Delta Lake, Databricks, ETL/ELT, Data Warehousing, CDC, Data Modeling, Data Quality, Airflow

Cloud (GCP): BigQuery, Managed Service for Apache Spark (Dataproc), Vertex AI Pipelines, Knowledge Catalog (Dataplex), Datastream, Dataflow, Cloud Storage, Pub/Sub

AI: LLMs, RAG, Weaviate, ChromaDB, GitHub Copilot, Claude Code, Amazon Q, MCP, A2A, scikit-learn

Tools & Databases: Git, GitHub, CI/CD, Jira, Confluence, PostgreSQL, MySQL, MongoDB, Docker, Terraform

Certifications & Achievements

Certifications: GitHub Copilot X-AI Practitioner+, Xebia (2026); Salesforce Developer Program (2023)

Coding: 151 problems solved on LeetCode; CodeChef highest rating 1614

[LeetCode](https://leetcode.com/adikshan11) | [CodeChef](https://www.codechef.com/users/adikshan11)

Leadership & Awards: Mentor, Xebia Tech-AI-Thon; NSS Community Lead; K-STAR instrumental music winner
