Education

Kalinga Institute of Industrial Technology

Sept 2020 – June 2024

Bachelor of Technology in Computer Science & Communication Engineering (8.32 CGPA)

Odisha, India

Delhi Public School Surat

March 2020

12th Standard CBSE (81.2%)

Gujarat, India

Experience

Xebia | Full-time, Gurugram, India

Aug 2024 – Present

Junior Consultant – Data Engineer | Levi Strauss & Co. (client)

Jul 2026 – Present

- Shipped **per-task timeouts** with named alerts in the shared **Vertex AI** pipeline framework and rolled them out to the e-commerce pipelines, so stuck tasks stop and alert instead of running for hours.
- Building one reusable **Dataproc** pipeline template in the shared framework for **600+ scheduled pipelines**, with a hard time limit and success read from the job's own final state.
- Cut a top-cost **Spark** pipeline's run cost by **98%** and ended its repeated 4-hour timeouts by pruning joins and partitions; moved **29 pipelines** to right-sized clusters.
- Validated **7 Hybris** pipelines against the new **SQL Server Hyperscale** source before cut-over, and repaired **1,455 missing records** in a 32 TB dbt backfill.
- Cleared platform **health-check** violations, removing orphan **BigQuery** objects only after lineage, audit logs and an org-wide code search showed no readers.

Technical Trainee | Centre of Excellence, then Levi Strauss & Co. (client)

Aug 2024 – Jun 2026

- Led the migration of **13 e-commerce data sources** from Databricks to **Spark on Google Cloud (Dataproc)** and **BigQuery**, validating each pipeline against legacy output.
- Designed **change data capture (CDC)** for order data with **Datastream** and BigQuery snapshot and change views, to replace Qlik replication.
- Built **Dataplex** data-quality scans for order-cancellation and inventory data, with thresholds tested on years of production data, and a **CI gate** that blocks dbt models without a scan.
- Renamed e-commerce **data marts and data products** to the platform naming standard, updating Analytics Hub listings and downstream consumers.
- Centre of Excellence: built **RAG** document extraction on **Weaviate/ChromaDB** and a **Terraform** linter on **Claude** (AWS Bedrock) ; selected for Xebia's **Forward Deployed Engineer** program.

Projects

NYC Taxi Lakehouse | PySpark, Delta Lake, dbt, DuckDB, Airflow 

- Delta Lake lakehouse over **9.5M trips**: quarantines **3.9%** bad records via 6 business rules, blocks bad loads with a 7-check quality gate, and serves dbt marts with **63 tests**.

imaarat.ai | LangGraph, Gemini, RAG, MCP, A2A, dbt  

- AI underwriting for Indian commercial property: scores proposals against seismic, flood and cyclone data for **19,312 PIN codes** and reads hand-filled forms in **26 languages**, with reviewer sign-off.

Bookmark'd | ReactJS, PostgreSQL, Redis, REST APIs, JWT, Docker  

- Book discovery platform built as a four-member final-year project; I built search, reviews and **JWT** login in **ReactJS** over **PostgreSQL** and **Redis**.

Technical Skills

Languages: Python, SQL, PySpark

Data Engineering: Apache Spark, dbt, Delta Lake, Databricks, ETL/ELT, Data Warehousing, CDC, Data Modeling, Data Quality, Airflow

Cloud (GCP): BigQuery, Dataproc, Vertex AI Pipelines, Dataplex, Datastream, Dataflow, Cloud Storage, Pub/Sub

AI: LLMs, RAG, Weaviate, ChromaDB, GitHub Copilot, Claude Code, Amazon Q, MCP, A2A, scikit-learn

Tools & Databases: Git, GitHub, CI/CD, Jira, Confluence, PostgreSQL, MySQL, MongoDB, Docker, Terraform

Certifications & Achievements

Certifications: GitHub Copilot X-AI Practitioner+, Xebia (2026); Salesforce Developer Program (2023)

Coding: 151 problems solved on LeetCode; CodeChef highest rating 1614

[LeetCode](https://leetcode.com/adikshan11/) | [CodeChef](https://www.codechef.com/users/adikshan11)

Activities: Mentor, Xebia Tech-AI-Thon; NSS Community Lead; Grade 8 Keyboard, Trinity College London
